Dust bin	Dust cover
Brush	Screwdriver small & large
Spare knife	

*Melanie*

### The founding mother of psychoanalysis

Melanie Klein was the first to study the emotional life of children and thus set a milestone for psychotherapy. It was only through her research in the 1920s that it became clear how important the relationship between small children and their closest caregivers, such as their mother, actually is. She is regarded as the founder of play therapy, which is well-established today, and as a pioneer in psychoanalysis alongside Sigmund Freud.
